June 30, 2016

Michael Flagg  
Air Division, US EPA  
75 Hawthorne St., AIR-7  
San Francisco, CA 94105

Dear Michael:

South Coast Air Quality Management District staff is pleased announce availability of the Final 2016 Annual Air Quality Monitoring Network Plan for your review. The Annual Network Plan can be downloaded at:

<http://www.aqmd.gov/home/library/clean-air-plans/monitoring-network-plan>

This report fulfills the Federal Regulatory requirement for an annual review of the Air Quality Monitoring Network. The plan recognizes and reports needs for additions, relocations, or terminations of monitoring sites and instrumentation. It includes a review of actions taken during the 2015-2016 fiscal year and plans for action in the year ahead.

A public workshop was conducted on May 19, 2016 to present the 2016 plan and the draft plan was made available online May 25, 2016 for 30 days to allow for public comment per Federal Regulations. There were no comments received in response to the workshop or during the comment period.

Thank you for your consideration, if you have any questions, please contact myself or the Atmospheric Measurements Manager, Jason Low at (909) 396-2269, [JLow@AQMD.gov](mailto:JLow@AQMD.gov).

Sincerely,

*Rene M. Bermudez*
